• FREE PROMPT PACK

Make your *data* move

Every data animation from the reel, as a copy-paste prompt. Swap the highlighted parts for your own text and you get the same style for your videos.

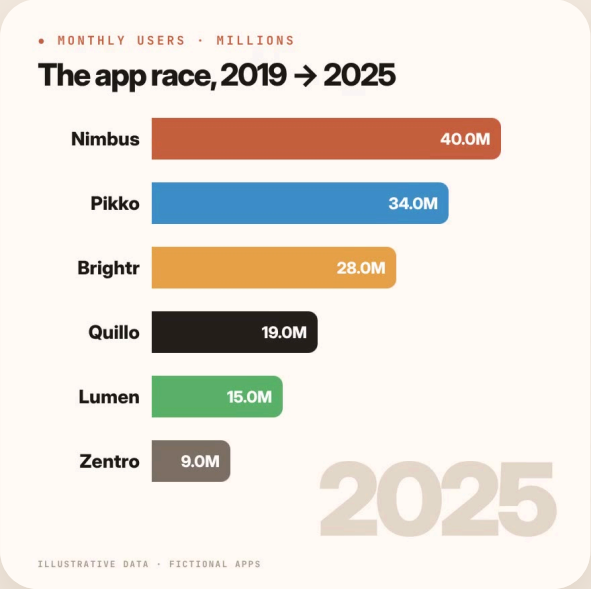

5
STYLES

• HOW TO USE

1. Copy a prompt and paste it into Claude.
2. Replace the highlighted parts with your own content.
3. Ask Claude to preview it, then tweak ("slower", "brand colours", "vertical 9:16").
4. Screen-record the preview, or ask for it as a video you can drop into your edit.

• STYLE 01 / 05

Bar chart *race*

WHAT IT DOES

Bars grow · ranks swap · year ticks up

COMMAND IN THE REEL

`/bar-race`

BEST FOR

History videos · Rankings · Market recaps

• COPY THIS PROMPT

```
Create a 5-second square HTML animation of a bar chart race on an off-white background. Title: "[TITLE]". Show [6] horizontal bars, each a different colour with its name on the left and its value inside the bar. Animate through these yearly values: [NAME: 2019, 2020, … 2025 values]. Bars grow smoothly, swap positions whenever the ranking changes, and a huge faded year number in the bottom-right ticks up. One self-contained HTML file.
```

MAKE IT YOURS

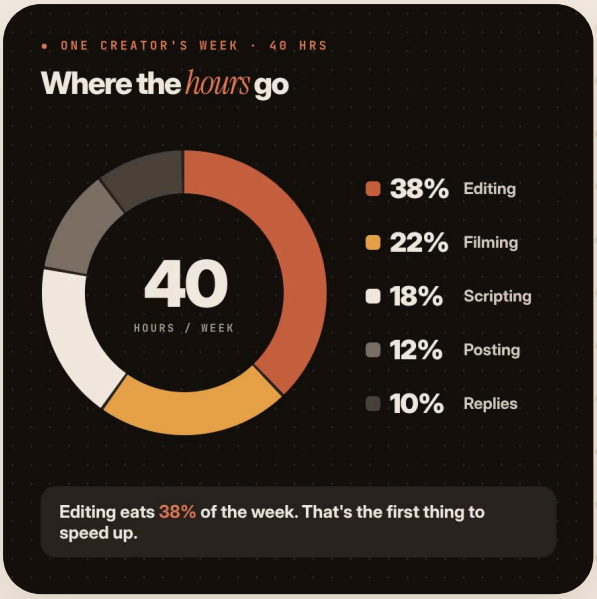

Paste a simple table of names and values per year. It handles the ranking for you.

KEEP IT HONEST

Use real data with a source line, or label it "illustrative data".

• STYLE 02 / 05

Donut *breakdown*

WHAT IT DOES

Segments sweep in · labels count up

COMMAND IN THE REEL

`/donut`

BEST FOR

Budgets · Time audits · Survey results

• COPY THIS PROMPT

```
Create a 5-second square HTML animation on a dark dotted background: a thick donut chart whose segments sweep in one after another, with the total counting up in the centre ("[40] [HOURS / WEEK]"). A legend on the right shows each segment's percentage counting up next to its name: [Editing 38%, Filming 22%, Scripting 18%, Posting 12%, Replies 10%]. At the end, the biggest segment pulses and a card slides up: "[INSIGHT]". One self-contained HTML file.
```

MAKE IT YOURS

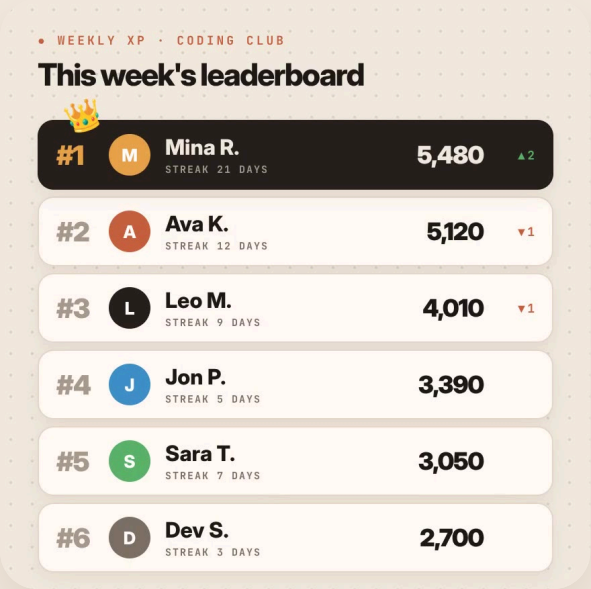

Works for any split that adds up to 100%: a budget, a survey, a market share.

GO FURTHER

Ask for "a pie that explodes into slices" or "two donuts side by side, before vs after".

• STYLE 03 / 05

Live *leaderboard*

WHAT IT DOES

Rows slide in · scores climb · new #1

COMMAND IN THE REEL

`/leaderboard`

BEST FOR

Competitions · Team updates · Gaming

• COPY THIS PROMPT

```
Create a 5-second square HTML animation of a leaderboard on a beige dotted background. Title: "[TITLE]". [6] rounded rows slide in from the left, each with rank, a coloured avatar initial, a name, a small streak label and a score. Then scores climb to these final values: [NAME: start → end]. Rows smoothly swap places as ranks change, arrows show who moved up or down, the new #1 row turns dark and a crown pops onto it. One self-contained HTML file.
```

MAKE IT YOURS

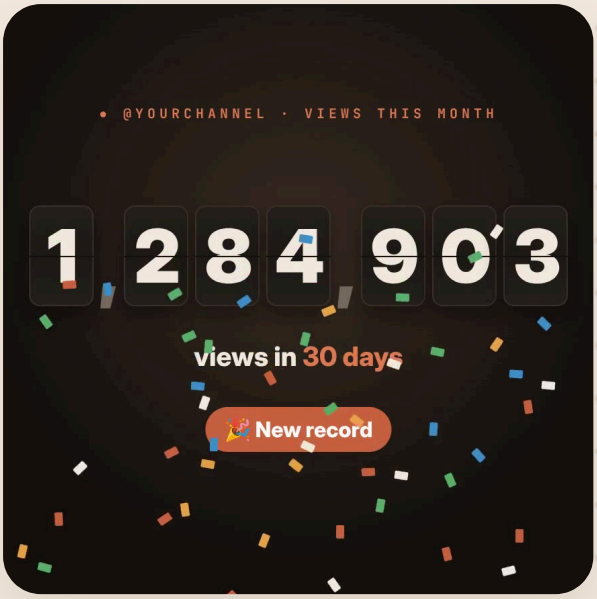

Use it for your community, a giveaway, or your top-performing posts of the month.

KEEP IT HONEST

Invent names or get permission before showing real people's scores.

• STYLE 04 / 05

Odometer *counter*

WHAT IT DOES

Mechanical digits roll · confetti

COMMAND IN THE REEL

`/odometer`

BEST FOR

Milestones · Launch stats · Year recaps

• COPY THIS PROMPT

```
Create a 5-second square HTML animation on a dark warm background: a mechanical odometer with separate digit tiles rolls up to [1,284,903], each digit spinning and landing one after another from left to right. A small label above says "[@YOURCHANNEL · VIEWS THIS MONTH]" and text below says "[views in 30 days]". When the last digit lands, a terracotta "[New record]" pill pops in and confetti falls. One self-contained HTML file.
```

MAKE IT YOURS

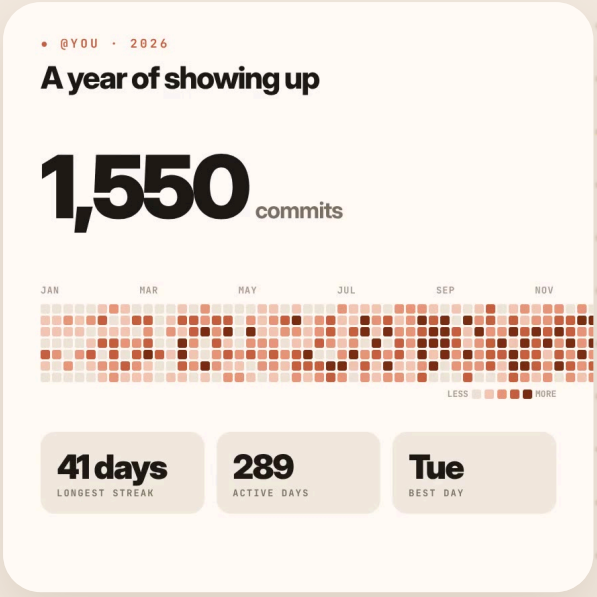

Change the number, the label and the pill text. That's all it needs.

GO FURTHER

Ask for "a slot-machine lever pull before it spins" or "a flip-clock style".

• STYLE 05 / 05

Activity *heatmap*

WHAT IT DOES

Calendar fills day by day · stats pop

COMMAND IN THE REEL

`/heatmap`

BEST FOR

Habit tracking · Dev recaps · Consistency

• COPY THIS PROMPT

```
Create a 5-second square HTML animation on an off-white background: a GitHub-style contribution calendar (52 weeks × 7 days of small rounded squares) fills in day by day from left to right in five shades of terracotta, with each new cell popping slightly. A big counter above rises to the total "[commits]". When the year is full, three stat cards slide up: [Longest streak 41 days, Active days 289, Best day Tue]. One self-contained HTML file.
```

MAKE IT YOURS

Swap "commits" for workouts, posts, pages read or days practised.

GO FURTHER

Paste your real daily numbers and ask it to use them instead of random data.

• BEFORE YOU GO

Make it *vertical*

All 5 prompts make square animations. For reels and shorts, add this line to the end of any prompt:

• ADD-ON

```
Make it 1080×1920 (9:16 vertical), keep all key content in the middle
1080×1350, and render it as a 30fps MP4.
```

SLOWER OR FASTER

Add "make it 8 seconds" or "make every move snappier".

YOUR BRAND

Add "use these colours: #hex, #hex" and your font name.
